

Power Strip

00223192 Power Strip, 3-Way, USB-C/A 100 W, PD, Switch, 1.4 m, black/grey

Highlightstext:

- High-quality, multi-socket power strip for connecting up to six electrical devices via three earthed contact sockets and three USB outputs with quick charging function, including for compatible laptops
- Charge a notebook via USB: with a powerful 100 Watts, the power strip with USB-C allows laptops, Macs and more to be charged using Power Delivery - without a separate power supply unit, a USB charging cable is all that's needed
- With 1 USB-A socket and 2 USB-C sockets: ideal for all devices that are charged and operated via USB, e.g. tablets, smartphones, power packs and consoles – thanks to superlative performance even laptops and notebooks
- The high fast-charging power via USB-C PD supplies a compatible laptop with 65 Watts, leaving a further 35 Watts available for mobile phones, etc. Alternatively, a particularly powerful notebook (100 Watt) can be charged via USB-C
- Fast charging with the USB socket: Supports Power Delivery and Fast Charge technology, which guarantees extremely fast charging, faster than with conventional charging technologies
- 6 slots for full power - all at the same time: The multi-way socket strip with USB and earthed contact sockets means you can charge your smartphone, tablet and headset even while your laptop, printer and monitor are in use
- Guaranteed maximum charging speed for all mobile devices: the 3 USB sockets ensure an output power optimised to the device
- Work at home or on the road: The 6-way socket strip guarantees optimised charging, protects the battery and therefore prolongs the lifespan of mobile phones, tablets, etc.
- Multi, fast, efficient: The multi-way sockets automatically recognise connected devices and charge them optimally on all available sockets
- High-quality workmanship that shows: with its attractive design, the 3-way power strip cuts a fine figure on the desk and is easy to use
- 3 earthed contact sockets for all eventualities: the multi-way power strip has increased touch protection to avoid accidental contact
- Practical multi-way socket with switch: The manual switch makes it easy to cut off the power supply, e.g. at the end of the work day or if the wall sockets are in hard-to-reach places such as behind cabinets or under the table
- Intelligent chip set for safe charging via USB: overloading, excess current and short circuit protection, IC with temperature protection
- Multi-socket power strip with switch: two-pole On/Off switch, ideal for switching off not-needed or standby equipment
- Manual switch with LED lighting: discreet LED function display in white without glaring lights
- Long-lasting and robust: special strain relief and kink protection on the plug and power strip protect against cable breakage
- Socket inserts on the multi-socket power strip rotated by 45°
- Multi-socket power strip with USB charging ports, ideal for domestic work rooms
- Universal power strip for PC workstations, offices and home offices: the ideal multi-socket power strip for computer peripherals, work corners in living rooms or on trips for working while on the move or charging multiple devices simultaneously
- Compact with many connections: ideal multi-socket power strip for living rooms and home cinemas, from TVs and Blu-Ray players to HiFi systems
- Mobile phone charging via USB-C: universal charging technology is suitable for mobile devices and smartphones from all popular manufacturers, including Samsung, Apple iPhone, Xiaomi and Huawei
- Optimised charging with Power Delivery: charging via USB PD 3.0 is ideally adapted to factors such as charging status, short-circuit protection and battery temperature

Note for Consumers:

Please check the product information or operating manual of your device or contact the manufacturer to see whether your device supports PD (Power Delivery).

Technical characteristics:

- Colour: Black/Grey
- Shade of colour: Black, Grey
- Number of USB Ports: 3
- Maximum Connected Load: 100 W
- Additional Functions: Overload Protection

Power Strip

00223192 Power Strip, 3-Way, USB-C/A 100 W, PD, Switch, 1.4 m, black/grey

- Function: Switch
- Number of Sockets: 3
- Cable Length: 1.4 m

Delivery:

- 1 power strip
- 1 operating manual
