## Universal Webcam Cover 2-pack

Article number: 4443646

Nowadays almost all devices have a built in webcam - smartphones, notebooks and tablets alike. The number of webcam-hacking (camfecting) incidents are increasing every day. Hackers can gain remote access to your devices' cameras without you even knowing. They can gain access with malware (trojans) or ,exploits' via your operating system's weak spots. Protect yourself against under the radar monitoring and take back power of what your built-in camera can see with ARTICONA's webcam cover. Simply stick the self-adhesive webcam cover over your camera. A little round slider moves back and forth to obstruct or reveal the camera.

- You decide what your webcam is allowed to see
- 100% protection against webcam hacking
- Suitable for notebooks, tablets and other devices with built-in cameras (not external webcams!)
- Built-in slider for opening and closing the webcam
- Easy to apply and remove
- 2 pieces
