ESSENTIAL 4K UHD - Breathtakingly clear and brilliant

UHD 4K

43A6BG

4K Ultra HD

Detailed images in 4K Ultra HD. 4 times as sharp as Full HD: ultra-fine details in the 4K UHD resolution of 3840 x 2160 pixels. 4K Ultra HD enables sharp images with depth, fluid motion and high-contrast, vivid detail.

Ease of use thanks to VIDAA U5

By interface VIDAA, you can arrange your favourite apps individually and call them up in a flash. More flexibility, more individuality and faster response time. With VIDAA Free you can also search for free content very easily.

Modern HDR technology

HDR technology (Dolby Vision, HDR10, HDR10+ decoding, HLG) enables an extra-wide extrawide colour space with a high dynamic range. This makes the finest details visible to the viewer.

UHD AI Upscaler

The UHD AI upscaling technology optimises the FHD signal to near 4K quality for picture improvements scene by scene if the content is only available in lower resolution.

TÜV Rheinland – Data Privacy

The security standards and protection of personal data are respected and complied with.

Frameless Design

The extremely flat construction and ultrafine frame embodies the minimalist and elegant design. High-quality materials paired with sophisticated technology underline the demand for highest quality.

Game Mode

For the gamers among you, the Game mode offers pure gaming pleasure. By means of ALLM the television automatically switches to game mode with the lowest latency. You can <u>fully concen</u>trate on the game.

Voice assistants

The voice assistants offer the highest level of comfort. Alexa Built-In, Google Assistant or VIDAA Voice are happy to accept your commands.
