

## BOOST↑CHARGE™

# Smart USB-A Cable with Lightning Connector

Belkin's smart LED cable features our latest technology, which allows you to see your phone's charge status from anywhere in the room. A custom circuit board with proprietary firmware communicates with your iPhone battery and displays a green or amber LED depending on your phone's charge level. The amber light lets you know your phone is connected and charging while the green light means you've got a full charge. MFi certified and featuring a universally compatible USB-A connector, you can charge up to 12W using a wall or car charger. Keep your cables looking and performing like new with an aircraft-grade aluminum overmold and double-braided nylon exterior that withstand more wear and tear while maintaining an elegant look and feel.

### Product Benefits

1. iPhone users get more than just a charging cable—it shows the charging level as it is working.
2. Our smart LED design communicates with iPhone battery level and changes color to show status: amber charging, green is fully charged.
3. The smart communication between the LED cable and the iOS battery is made possible by firmware code developed by Belkin engineering.
4. Double-braided nylon exterior for enhanced strength and durability.
5. MFi certification ensures compatibility with iOS devices.
6. Exterior housing of aircraft-grade aluminum is built to last, and protects the circuit board from wear and tear during travel and heavy use.

### Technical Specifications

- USB-A to Lightning Connector
- 4 ft./1.2m length
- Built-in LED shows charging status

### Compatibility

Made for

Phone 11 Pro Max

iPhone 11 Pro

iPhone 11

iPhone XS Max

iPhone XS

iPhone XR

iPhone 8

iPhone 8 Plus

iPad Pro (12.9-inch) 2nd generation

iPad Pro (10.5-inch)

### Package Includes

- Smart USB-A Cable with Lightning Connector

## BOOST↑CHARGE™

### Smart USB-A Cable with Lightning Connector

#### The Belkin BOOST↑CHARGE Family

A family of power products with fast charging in their DNA. Designed to integrate seamlessly to any environment to deliver fast, safe power at home, in the car, or on the go. Smart circuitry detects the connected device to deliver optimal charging, while universal charging protocols such as USB-A, Lightning connectors, and USB-C offer widespread compatibility.

#### The Belkin BOOST↑CHARGE Family Characteristics

- Faster charging than standard 5W
- Widespread compatibility
- Portability
- Smart circuitry detects connected devices to deliver optimal charging
- Certified by relevant bodies for compatibility (examples include USB-IF, MFi)

#### The Belkin Difference

- Pioneer in innovation and technology for over 35 years
- #1 third-party maker of wireless charging accessories\*
