Built for enhanced collaboration

Dell Pro 75 Plus 4K Touch Monitor

MODEL: P7525QT

The world's # 1 monitor company*

Bring the team together on a 75-inch 4K touch monitor built for enhanced collaboration featuring up to 90W power via USB-C, palm rejection and 20-point InGlass Touch.

Effortless connectivity and management

Unlock seamless productivity with advanced management tools and versatile connectivity options, including single-cable USB-C (90W PD), HDMI, DisplayPort, and daisy-chaining capabilities. Simplify setup and control with Crestron Connected® and Crestron XiOCloud®, ensuring streamlined remote management.

Finish your solution with Dell Conference Room Integration, featuring a compartment for the Dell OptiPlex Micro and power pass-through for video conferencing devices.

Enhanced collaboration and interaction

Transform meetings with intuitive collaboration technology that brings teams together. Twenty-point InGlass™ Touch enables multiple users to interact simultaneously, while precise stylus functionality with palm rejection delivers a natural writing experience.

Elevate discussions further with built-in 20W speakers, ensuring crystal-clear and immersive audio for every session.

Superior visual experience

Experience stunning 4K clarity on a 75" screen designed to impress. In-plane Switching (IPS) technology ensures vivid colors and consistent viewing from any angle, making every detail count.

ComfortView Plus, an always-on low blue light feature, paired with anti-glare and anti-smudge properties, enhances eye comfort for effortless extended use.
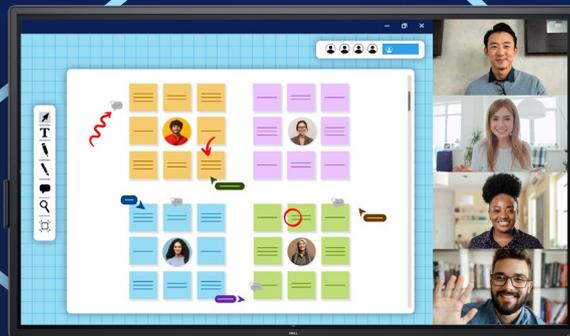

Your connectivity hub

Make your monitor a productivity hub with extensive connectivity options including HDMI, DP and USB-C — all in one clutter-free setup.

Plus, keep your laptop powered during presentations with USB-C charging that delivers up to 90W of power.

Collaborate smarter

Easily manage your monitor with Crestron Connected® and Crestron XiO Cloud® for seamless remote management. Boost team collaboration with twenty-point InGlass™ Touch technology for simultaneous engagement, while palm rejection and a dual-tip stylus ensure a natural, precise writing experience.

Seamless integration with Dell Video Conferencing Room Solutions

This monitor has been tested and validated to work with complete conference room ecosystems that include audio, video and room control, powered by Dell Pro Micro.

Integrate an optional Dell Pro Micro in the lockable, powered compartment.

Present in stunning 4K

Make every presentation brilliant on a 75" screen in 4K.

See consistent colors across the screen with wide viewing angle enabled by In-Plane Switching (IPS) technology, and get better extended viewing experience with ComfortView Plus that reduces low blue light without compromising color.

Environmentally forward thinking

Material innovation

Your monitor has been thoughtfully crafted with 85% recycled plastic like post-consumer plastic and closed loop plastic, 90% recycled aluminum[1] and at least 20% recycled glass.[2] Using recycled materials helps conserve natural resources and contributes to a lower environmental footprint.

Environmental Standards

This monitor is certified ENERGY STAR® and registered EPEAT Gold with Climate+ meaning it has met key standards for energy efficiency and climate impact.[3]

Seamlessly modernize your tech

We can help you responsibly and securely retire your legacy IT equipment, regardless of brand, while addressing your sustainability goals.

Packaging with purpose

This monitor ships in a box made from 100% renewable materials. We are reducing plastic waste wherever possible and transitioning to a responsible fiber-based solution.[4] Plus, we're saving over 600 trees each year by using less paper in packaging.[5]

---

1   Based on internal analysis, February 2025. Percentage is based on plastic weight. Post-consumer recycled plastic: 55.4%, Closed loop ITE derived plastic: 30.1%. Recycled aluminum is in the monitor stand.
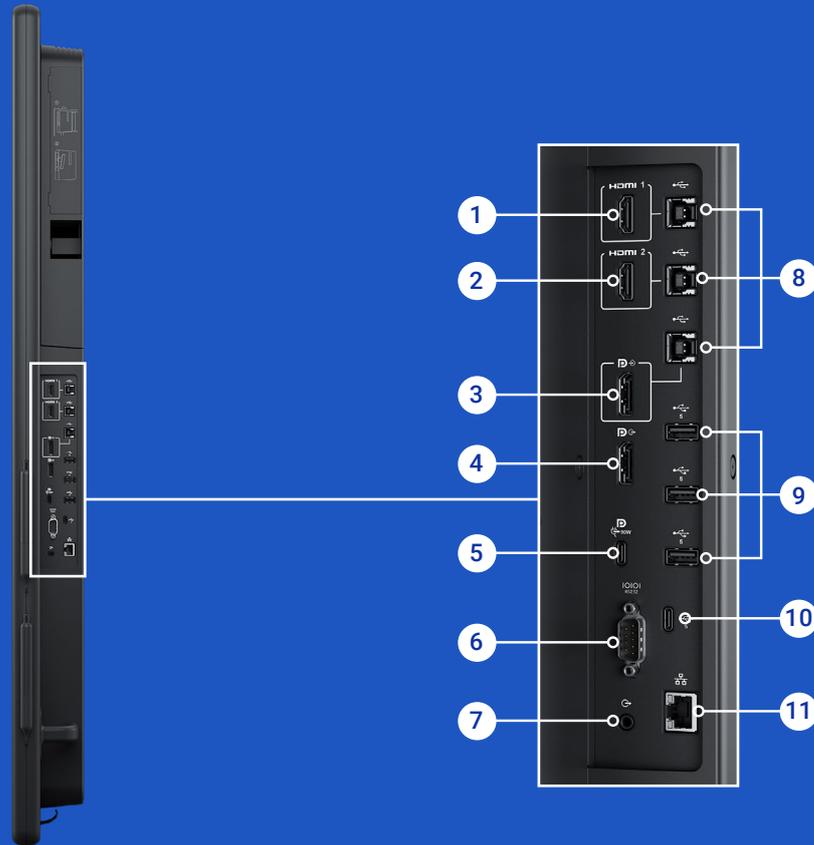

2   Applicable to all new monitors launching in CY 2025. Recycled glass is present in monitor panel. Based on internal analysis, January 2025

3   EPEAT registered where applicable. EPEAT registration varies by country. See www.epeat.net for registration status by country

4   Applies to all Dell monitors launched since 2023. Made from FSC mix sources which is a mix of material from FSC certified forests, recycled content and/or FSC controlled wood. Based on internal analysis, January 2025. Cushions now made from corrugated materials.

5   Based on internal analysis, February 2025. Applies to monitors launching in 2025. Reductions based on monitor type and attributed to the quick start guide size and calibration sheet digitization.
