

Cruzer Force™

Shouldn't your data storage be as stylish as you are?

- Sleek, stylish design
- Durability to help protect your files
- Password-protects and encrypts private files¹
- 8GB, 16GB, 32GB and 64GB* capacities

FULL PRODUCT DESCRIPTION

With its smart grey and red finish, Cruzer Force USB Flash Drive 16GB looks good from the moment you see it. Its outer casing is engineered from metal to ensure that it gives your files an extra dimension of physical protection against accidental knocks. And its neat design means it's ready for you to store or access files at moment's notice.

The Cruzer Force USB Flash Drive is available in capacities of up to 32GB*. Stylish, secure and durable, it's a great way to carry music, pictures, home videos or movies around with you to enjoy wherever you want – or stay prepared with spreadsheets, presentations, and other work files for use in or out of the office. As well as offering physical protection, it makes sure that your private files stay protected as well, with the password protection and encryption offered by SanDisk SecureAccess™ software¹.

FEATURES AND BENEFITS

- A durable metal casing in a sleek, stylish design
- Helps provide reliable physical protection for your files
- SanDisk SecureAccess software protects private files with a personal password and automatic 128-bit AES encryption¹
- Available in 8GB, 16GB, 32GB and 64GB* capacities

CHOOSING THE RIGHT USB

Selecting the right capacity of USB doesn't have a simple answer.

It all depends on what you want to store, and how much of it. For example, a single Full HD video can take up a number of gigabytes. The chart shows a typical mix of photos, videos, music and office files to give you an idea of what each capacity can store.

CHOOSING THE RIGHT USB

¹1 gigabyte (GB) = 1 billion bytes. Some capacity not available for data storage. ²Approximations: results will vary based on file size, resolution, compression, bit rate, content, host device, pre-loaded files & other factors.

The capacity you need to store more

16GB Cruzer Force USB Flash Drives give you the room you need, just in case, so that you can carry round your favourite videos, photos and music, or large work files.

Stylish portability and protection

The 16GB Cruzer Force USB Flash Drive is simple to attach to a key ring, binder, lanyard or belt loop, so that you can carry it around when it's not in use.

Stay protected with SanDisk

SanDisk SecureAccess software makes it easy to protect personal or business-critical files. Simply drag and drop files into the vault, and they'll be protected by a personal password and automatic 128-bit AES encryption. This means that your content will stay private and secure when you take the drive out and about, or if you store it away for safe keeping.

Compatibility

The Cruzer Force Flash Drive is optimised for laptops and devices with USB 2.0 ports.

Reassurance with performance

SanDisk develops and engineers its USB Flash Drives to maximise reliability. You can count on your Cruzer Force USB Flash Drive to store your important files, and it's backed by a five year warranty.
